

THE YORKVILLE ENQUIRER.

SCHOOL ENROLLMENT.

Inasmuch as the time for the enrollment of pupils in the public schools is approaching—it expires June 31—and this is the basis upon which school funds are apportioned, a statement of the enrollment in the various schools as it now exists, will prove of practical value to those having the matter in charge. The following, prepared by Superintendent of Education Shurley at the request of THE ENQUIRER, includes the present enrollment of each of the schools in the county, both white and colored, together with the district to which each school belongs. The figures in the first column includes the number of the district. Then follows the name of the school, and the number of pupils enrolled:
